Introduction

This document is the SSCP functional certification application form.

This application form should be completed by the developer that wishes to get the SSCP functional certification performed by the SPAC association.

The possible certification levels are:

- Basic
- Substantial
- High

And the product type can be:

- Reader
- Host

The certification of conformity is performed in line with:

Code	Reference	Name and Editors
[1]	SPAC.TR. 001.SSCP.0.3	Technical Report: Secure and Smart Communication Protocol - SPAC

[2]	SPAC.PRO.001.PTSSCP.001.A11	SSCP functional Testing plan - SPAC

SSCP functional Certification Scheme

The functional conformity certification scheme is based on the principles of international standards:

- ISO / IEC 17065 for the Certification body
- ISO / IEC 17025 for the Functional evaluation laboratory

Roles and responsibilities

This section defines the Roles and responsibilities of the scheme actors.

The developer is responsible to:

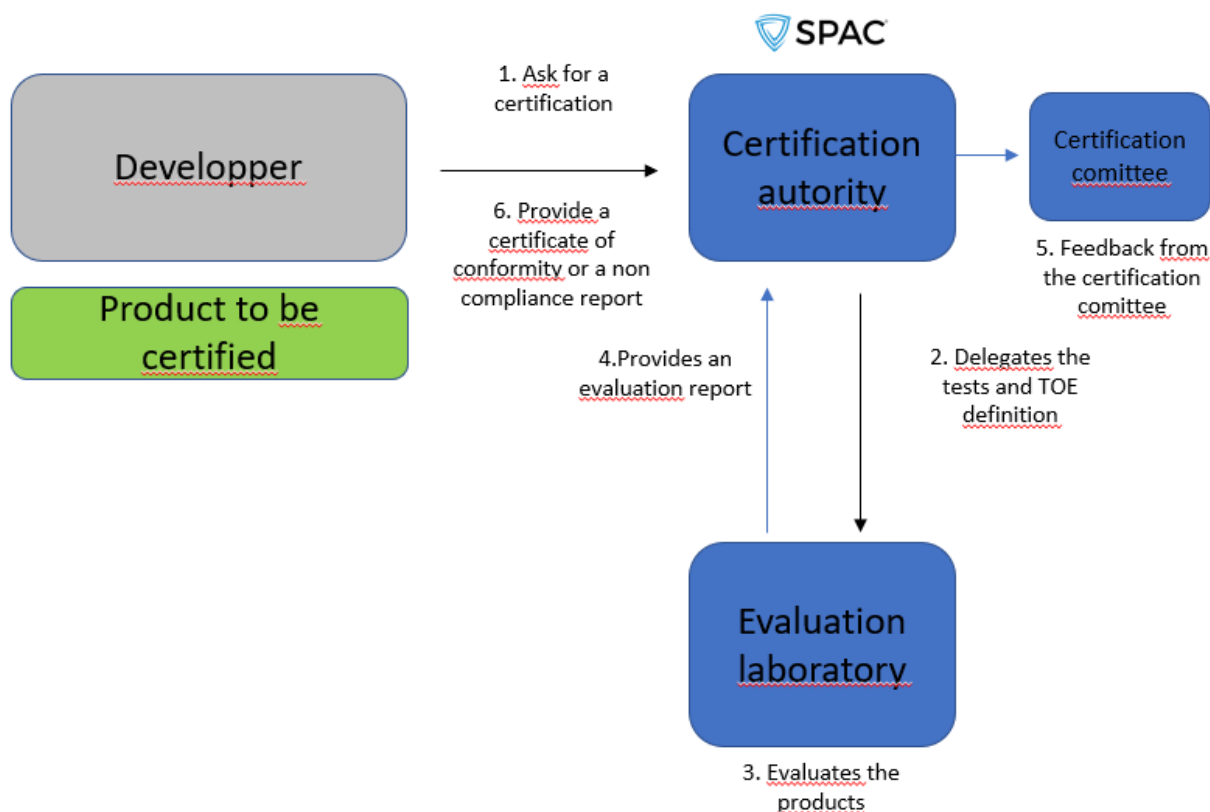

- Develop a product integrating the SSCP protocol as defined in the document reference [1]
- Request to SPAC to be Certified by SPAC
- Request a technical evaluation and requests a financial offer to the evaluation laboratory

SPAC is the Certification Body and is responsible to:

- Publish the SSCP protocol specifications [1]
- Publish the SSCP functional testing plan [2]
- Qualify the SSCP testing tool developed by the evaluation laboratory
- Decide if the certification is successful or not.
- Publish on its website the list of products that have been certified. The developer can ask to not publish its evaluation result.

The evaluation laboratory is responsible to:

- Develop the SSCP testing tool
- Perform the functional SSCP evaluation
- Prepare the evaluation report that will be sent to SPAC for review.

Target of evaluation (TOE) identification and administrative information

The following tables here below should be completed by the product developer:

Target of evaluation identification

Product Name	Certification Level	Option	Product type	Reference du firmware
	■ Basic	None		
	■ Substantial	Transparent mode		
	High			

Company name:

Project Manager/Contractual POC

Address:

Contact name:

Telephone number:

E-mail address:

Website:

If invoicing and payment are handled by another person or organisation, please complete the following fields:

Organisation name:

Address:

Contact name:

Telephone number:

E-mail address:

Qualified SSCP Functional evaluation laboratory

The developer shall get a technical and commercial offer from the functional evaluation laboratory.

The current qualified SSCP functional evaluation laboratory is

Organisation name: Cabinet Louis Reynaud Labs – CLR Labs

Address: 3 rue plan Cavaillon 13420 Gémenos – France

Contact name:	Stefane Mouille
Telephone number:	+33 (6) 81 82 35 92
E-mail address:	info@cabinet-louis-reynaud.fr

Certification and Evaluation costs

Type of certification	Certification cost in € without VAT	Evaluation cost in € without VAT
Basic	1 250	5 000
Substantial	1 250	6 250
Substantial + transparent mode	1 250	7 500
